HIGH PERFORMANCE MODERN SLIDING SASH WINDOW

All windows are manufactured to meet the requirements of BS 644 Part 1.

TIMBER - European Redwood double vacuum pressure impregnated preservative treated classified to BS EN 942 and in accordance with BS 8417, alternatively in clear softwoods or common hardwoods. All redwood is obtained from independently certified sources for sustainability.

PERFORMANCE - High performance weather-strip is pre-fitted as standard meeting the stringent requirements of BS 6375: Part 1.

DECORATION - Supplied factory finished using a translucent or opaque high build microporous system as standard.

CONSTRUCTION - Section details can be submitted upon request. Glazing bars can be either traditional solid bars or modern day "plant on" bars fixed using specialist adhesive tape. Sashes are comb jointed and frames are mortise and tenon jointed. Adhesives used comply with the D3 requirements of BS EN 204.

GLAZING - Factory glazed as standard using double glazed units with a "low-E" coating to the inner pane to comply with Document L of the Building Regulations. Kite marked double glazed units manufactured in accordance with BS EN 1279. All glass and glazing is in accordance with BS 6262 and BS 8000. As standard, all glazing beads are timber for a fully bedded glazing system.

IRONMONGERY - Sashes open on spiral sash balances. Bottom sashes are fitted with fitch fasteners and sash lifts. Options include restrictors.

VENTILATION - Trickle ventilators are supplied in the top sash top rail to assist in compliance with part F of the building regulations with choices from our own range.

GUARANTEES
